Institut Universitaire du Benin

## CERTIFICATION

### React, Next.js and Front-End Development

Credential ID: UC-8b915820-6b25-4138-bce3-4f58d03c0085

## ADDITIONAL

### English

Right to Work in the UK: Yes

# CELEBRATION OJINGULU IFECHUKWUDENI

## FRONT-END DEVELOPER

## PROFILE

Front-end developer with hands-on production experience in React, Next.js (SSR, SSG, ISR), TypeScript and Tailwind CSS, plus a background in IT support and data analysis. Reduced page load times by 30% and boosted engagement by 20% on live projects. Comfortable across the full front-end workflow: building, debugging, and shipping responsive, SEO-optimised web apps using Git-based collaboration.

## EMPLOYMENT HISTORY

### Web Developer | Adesa HQ

March 2025 - Present

- Built and launched the corporate website for Adesa HQ (adesahq.com) using Next.js, TypeScript, and Tailwind CSS, cutting page load times by 30% through server-side rendering (SSR) and dynamic routing.
- Increased user engagement by 20% by implementing incremental static regeneration (ISR), optimised image loading, and API routes across the live site.
- Integrated a CMS for content management and dynamic page generation, enabling non-technical staff to publish updates without developer involvement.
- Resolved 15+ front-end bugs and cross-browser inconsistencies per sprint, documenting fixes using Git version control to speed up team debugging and onboarding.

### IT Service Specialist | PalmPay Limited

Jan 2024 - Feb 2025

- Sustained 99% system uptime by managing Microsoft 365 accounts, mail flow, and domain configuration for 300+ users.
- Resolved 95% of tickets on first contact and cut backlog by 30% by streamlining the troubleshooting workflow and prioritisation process.
- Improved inventory accuracy by 25% by auditing and restructuring asset data in Excel using advanced formulas and PivotTables, tightening maintenance scheduling.
- Authored 20+ technical support documents that reduced repeat tickets by 15% and shortened new-hire ramp-up time.

### IT Intern | GIIT Africa

2020 - 2023

- Diagnosed and resolved 20+ hardware/network issues per month across LAN/WAN environments, minimising downtime for 50+ staff.
- Supported front-end and IT infrastructure tasks in parallel, building foundational HTML/CSS/JavaScript skills later applied in production Next.js projects.

## SELECTED PROJECT

### Linkcon-Rent | Next.js, TypeScript, Tailwind CSS

[linkconn-rent.vercel.app](#)

Verified property rental platform for Nigeria - map-based search, two-party viewing confirmation, digital lease signing, and Paystack-secured payments.
